BERRY, VICKIE L

DOB: 03/01/1953
Age: 69 years
Sex: Female
MRN: 10502
Registration Date: 03/08/2022
Primary Care Physician:
Akande MD, Olusina

Chief Complaint

frequency of urination, hurts to urinate, had some pink coloring to toilet paper when she wiped, no fevers, symptoms started a couple of days ago

History of Present Illness

Patient is here with concern of possible UTI. States that she has had symptoms of dysuria and frequency for the past 3 days. She states that she called the office because she did notice that she had a pinkish discoloration on toilet paper when she wiped but no visible blood in her urine. She has had some lower back pain that is a little bit worse than her normal lower back pain but it does not seem to be on one side versus another. Patient denies fever, nausea, vomiting, diarrhea.

UA performed in office was positive for blood and leukocytes. I will treat patient for UTI based on this and patient symptoms. Vital signs reviewed in office and they are within normal limits. Patient has no further questions today.

Heart: Normal rate, regular rhythm, no murmur, gallop or edema.
Abdomen: Soft, non-tender, non-distended, active bowel sounds, no masses.
Musculoskeletal: Normal range of motion and strength, no tenderness or swelling.
Skin: Skin is warm, dry and pink, no rashes or lesions.
Neurologic: Awake, alert and oriented X4, CN II-XII intact.
Psychiatric: Cooperative, appropriate mood and affect.

Assessment/Plan

1. Urinary tract infection N39.0

UA performed in office and results listed in HPI. Urine will be sent for culture and patient will be called with culture results if they indicate that antibiotic may need to be ineffective. Bactrim DS ordered for patient to take twice daily x5 days. I also ordered Pyridium for patient's complaint of dysuria. Patient encouraged to push fluids, specifically water, and to take antibiotic as directed until completed. Patient advised that if she starts running fever, lower back pain worsens or seems to be one-sided versus another, or if she starts vomiting uncontrollably, then she needs to be seen. Advised patient on side effect profile of antibiotic as well as Pyridium. Patient verbalized understanding about all and has no further questions today.

Ordered:

Bactrim DS 800 mg-160 mg oral tablet, 1 tab, Oral, every 12 hr, # 10 tab, 0 Refill(s), Pharmacy: CVS/pharmacy #6534, 162.56, cm, 03/08/22 14:53:00 EST, Height

Dysuria R30.0

See above

Ordered:

Bactrim DS 800 mg-160 mg oral tablet, 1 tab, Oral, every 12 hr, # 10 tab, 0 Refill(s), Pharmacy: CVS/pharmacy #6534, 162.56, cm, 03/08/22 14:53:00 EST, Height

Orders:

Pyridium 100 mg oral tablet, 100 mg = 1 tab, Oral, TID, # 6 tab, 0 Refill(s), Start Date: 03/08/22 15:14:00 EST, Pharmacy: CVS/pharmacy #6534, 162.56, cm, 03/08/22 14:53:00 EST, Height

Urine Culture Comprehensive LC, Urine, Routine Collect, 03/08/22 15:16:00 EST, Once, Nurse collect, Print Label, Other abnormal findings in urine

Follow Up Instructions

No qualifying data available

aspirin 81 mg oral tablet, 81 mg= 1 tab, Oral, Daily
Bactrim DS 800 mg-160 mg oral tablet, 1 tab, Oral, every 12 hr
clopidogrel 75 mg oral tablet, 1 tab, Oral, Daily
FeroSul 325 mg (65 mg elemental iron) oral tablet, TAKE 1 TABLET BY MOUTH EVERY OTHER DAY
levothyroxine 100 mcg (0.1 mg) oral tablet, 1 tab, Oral, Daily
lisinopril 40 mg oral tablet, 1 tab, Oral, Daily
omeprazole 40 mg oral delayed release capsule, 40 mg= 1 cap, Oral, Daily, 3 refills
pravastatin 20 mg oral tablet, 1 tab, Oral, Daily
Pyridium 100 mg oral tablet, 100 mg= 1 tab, Oral, TID
traZODone 50 mg oral tablet, 4 tab, Oral, every day at bedtime, PRN
