Assessment

Houk RN,Nicole (5/9/2025 08:32 EDT)

PT. comes in with c.o of R knee pain and swelling X2 weeks. PT. states it hurts more when she moves it or touches it. PT. denies any injury to that area. R knee is swollen and red and warm to touch. PT. is tender to palpate R inner knee. Skin is PWD. Capillary refill < 3seconds
