Tobacco Treatment Resources

Quitting alone is not easy and most people need help. Working with a professional can help you beat the addiction of nicotine. Please ask your healthcare professional for assistance to quit. Below are additional resources.

Indiana Tobacco Quit Line

Phone Number: **1-800-784-8669**Online Web Coaching: **equitnow.com**

Online information about Indiana Tobacco Quit line: quitnowindiana.com

- Telephone or Web-based counseling service that helps Indiana tobacco users quit
- · An assessment of readiness to quit
- · A customized quit plan
- Two weeks free nicotine replacement medication for eligible clients (Medicare, Medicaid or Uninsured)
- Indiana Tobacco Quit Line, Tobacco Cessation Behavioral Health Program (TCBHP)
 - · Higher intensity behavioral and pharmacological support for individuals with mental health conditions

Websites

BecomeAnEx: https://www.becomeanex.org

• Develop a customized quit plan and provide tools to navigate your quit journey

Smokefree.gov: https://smokefree.gov/

• Develop a customized quit plan and provide tools to navigate your quit journey

Free Mobile Apps

LIVESTRONG My Quit Coach (Available for Apple)

• LiveStrong is a free app that will help you develop a personalized plan for quitting, track your smoking consumption, nicotine cravings and allows you to communicate with other users via the app's built-in social support circle.

QuitGuide (Available for Apple and Android)

• QuitGuide is a free app that tracks cravings, moods, slips, and smokefree progress to help you understand your smoking patterns and build the skills needed to successfully become and stay smokefree.

quitSTART (Available for Apple and Android)

• quitSTART is a free app that provides you with information to help prepare you to quit, monitor your progress, manage cravings share progress on social media and plan quit assistance at specific places or times.

Suicide Prevention Resources

Help is available if you or someone you are concerned about is at risk for suicide.

- Call 988 to reach the Suicide & Crisis Lifeline
- For the Community Behavioral Health Crisis Line, dial 1-317-621-5700, Option 1

An electronic version of the After Visit Summary is available through MyChart. Access the My Education link under the Resources section in MyChart to learn more about your health condition(s).

Thank you for choosing Community

It was our pleasure caring for you!

Our Goal: Provide an exceptional experience for our patients.

We Want to Hear From You.

If you have questions about your Community experience or suggestions for making it better, please call **317-621-7000** or email **PatientExperience@eCommunity.com.** Office hours are Monday - Friday, 8 a.m. to 5 p.m.

You may receive a survey asking about your experience with Community Health Network. Your voice and opinions are important to Community Health Network and are used to improve upon our commitment to provide "Exceptional care. Simply delivered."

If you are having a medical emergency, please call 911.

Billing Reminder

I understand the services I received today will be submitted to my insurance, if applicable. I understand that I am financially responsible for all amounts not paid by insurance or other payers for services provided to me by Community Health Network and I agree to pay all charges when due or in accordance with any financial arrangement.

If you are experiencing any medical or psychiatric emergencies, seek treatment at the nearest emergency room or call 911.

For any additional questions regarding chemical dependency treatment, please contact our Access Center at 317-849-8222.

Office Visit - Jan 13, 2025

with Melissa Anderson at Indiana Kidney Specialists

Notes from Care Team

Visit Notes

Progress Notes by Melissa Anderson at 1/13/2025 2:40 PM

Initial Office Visit 1/13/2025 With Melissa Anderson, MD

Patient: Vickie L Berry 3/1/1953

History of Present Illness

Vickie L Berry is a 71 y.o. female who was referred by PCP Akande, Olusina, MD for evaluation of CKD

H/o HTN, CVA, insomnia, GERD

Here due to concern about elevated cr

No known h/o CKD

Her son noticed rise in cr on her labs, requested referral for further eval

Patient states she feels ok

No edema--in fact, feels like her feet are shrinking/shoes getting larger

no urinary complaints no kidney stones, no recurrent UTI, no bladder procedures no incontinence no renal biopsy no history of dialysis no h/o heavy NSAID use--has not used ibu in years

No DM--last A1c in 5s She has weaned her chronic ppi, doing well

Past Medical History:

Diagnosis

Date

Anemia

- Cerebral artery occlusion, unspecified, with cerebral infarction (HCC)
- Chronic kidney disease
- Esophageal reflux
- Essential hypertension
- Family history of colon polyp, not otherwise specified
- Hypothyroidism
- Insomnia
- Osteopenia
- Other and unspecified hyperlipidemia

History reviewed. No pertinent surgical history. No Known Allergies

Current Outpatient Medications:

- amLODIPine (NORVASC) 5 MG tablet, Take 5 mg by mouth 1 (one) time each day, Disp: , Rfl:
- Calcium Carb-Cholecalciferol (CALCIUM 500 + D PO), Take 1 tablet by mouth 1 (one) time each day, Disp: , Rfl:
- clopidogrel (PLAVIX) 75 MG tablet, Take 75 mg by mouth 1 (one) time each day, Disp: , Rfl:
- lactulose (CHRONULAC) 10 GM/15ML solution, Take 20 g by mouth (Patient taking differently: Take 20 g by mouth 1 (one) time each day), Disp: , Rfl:
- levothyroxine (SYNTHROID, LEVOTHROID) 100 MCG tablet, Take 100 mcg by mouth 1 (one) time each day, Disp: , Rfl:
- olmesartan (BENICAR) 40 MG tablet, Take 40 mg by mouth 1 (one) time each day, Disp: , Rfl:
- omeprazole (PriLOSEC) 40 MG DR capsule, Take 40 mg by mouth 1 (one) time each day Do not crush or chew., Disp: , Rfl:
- pravastatin (PRAVACHOL) 20 MG tablet, Take 20 mg by mouth 1 (one) time each day, Disp: , Rfl:
- traZODone (DESYREL) 50 MG tablet, Take 50 mg by mouth every night, Disp: ,
 Rfl:
- venlafaxine XR (EFFEXOR-XR) 150 MG 24 hr capsule, Take 300 mg by mouth 1 (one) time each day (Patient taking differently: Take 150 mg by mouth 1 (one) time each day), Disp: , Rfl:

Neck: Neck supple. No JVD present.

Cardiovascular: Normal rate, regular rhythm, normal heart sounds and intact distal pulses. Exam reveals no gallop and no friction rub.

No murmur heard. She exhibits no edema.

Pulmonary/Chest: Effort normal. No respiratory distress. She has no wheezes. She

has no rales.

Abdominal: Soft. Bowel sounds are normal. She exhibits no distension. There is no abdominal tenderness. There is no guarding.

Musculoskeletal: She exhibits no tenderness.

Lymphadenopathy:

She has no cervical adenopathy.

Neurological: She is alert and oriented to person, place, and time.

Skin: Skin is warm and dry. No rash noted. **Psychiatric:** She has a normal mood and affect.

All available labs reviewed

No lab exists for component: "BUN6", "LABALBU", "BKDNA"

No lab exists for component: "PTHINTACT"

No lab exists for component: "IRON SATURATION"

Assessment & Plan

1. Chronic kidney disease stage 2

- 2. Hypertension
- 3. Anemia in chronic kidney disease
- 1. CKD2. Remote cr 1, oct 2024 cr 1.2. +h/o HTN and PVD so suspect nephrosclerosis and age-related changes.
 - a. Repeat labs
 - b. Send for anatomy eval/RUS
 - c. F/u w labs 6w
- 2. HTN with PVD (carotid dz) and h/o CVA. BP fair today. Last echo a few y ago was normal/preserved EF. No known CAD.
 - a. Cont same CCB, arb (has chronic cough, did not change when acei switched to arb)
 - b. Start home monitoring, bring log to appt
 - c. They wonder about OSA--would be reasonable to get study though her survey was normal. Defer to pcp
- 3. Anemia in CKD. Does not tolerate oral fe well due to constipation (is on lactulose which she prefers as laxative). Will get f/u cbc to monitor
- 4. CVA and PVD. Very mild memory loss. Here w her son. Is on ac per PCP

Return in 6 weeks (on 2/24/2025) for Next scheduled follow-up. I asked patient to have labs drawn in advance of next visit so we may discuss in clinic.

Orders Placed This Encounter

- Ultrasound Renal Complete

Chief Complaint

Telehealth no concerns at this time No way to do vitais

History of Present Illness

The patient is a 71-year-old female who presents for an audio visit.

This appointment was conducted utilizing an audio-only phone visit that permits communication between the patient and provider. Verbal consent was obtained from the patient to perform the encounter on 10/08/2024 and any questions about the visit were answered.

The patient reports that she has no significant concerns at this time. She has noticed that she can walk at a fairly brisk pace for a few miles without getting short of breath; however, she is curious as to why whenever she walks to pick up toys out of the yard that she starts to get short of breath. It was explained to the patient that picking up toys requires the use of muscles such as her lower back and her abdominals, which are likely not used as much whenever she is simply just walking.

Review of Systems

Constitutional: No fevers, chills, sweats

Eye: No recent visual problems

ENT: No ear pain, nasal congestion, sore throat Respiratory: Positive for shortness of breath. Cardiovascular: No Chest pain, palpitations, syncope

Gastrointestinal: No nausea, vomiting, diarrhea

Genitourinary: No hematuria

Hema/Lymph: Negative for bruising tendency, swollen lymph glands

Endocrine: Negative for excessive thirst, excessive hunger

Musculoskeletal: No back pain, neck pain, joint pain, muscle pain, decreased range of

motion

Integumentary: No rash, pruritus, abrasions

Neurologic: Alert & oriented X 4 Psychiatric: No anxiety, depression

Office Clinic Notes

Physical Exam

Vitals & Measurements Deferred: audio visit

Assessment/Plan

1. Essential hypertension I10

Chronic, controlled.

Complicated by patient's other comorbidities, most likely complicated by the patient's lifestyle along with her history of CVA.

Meds: No current changes in management. The patient will continue to take amlodipine and olmesartan.

Labs: Future labs have been sent.

Imaging: EKG is not on file.

Counseling: Lifestyle changes such as low salt diet, activity, and excess alcohol.

2. History of CVA (cerebrovascular accident) without residual deficits Z86.73 Chronic, stable.

No changes in management. The patient will continue to take pravastatin.

CKD stage G3b/A1, GFR 30-44 and albumin creatinine ratio <30 mg/g N18.32 New diagnosis, uncontrolled.

Meds: N/A

Labs: On the review of the patient's labs and history, there does seem to be a slow increase in her creatinine with a decrease in her GFR. A repeat BMP has been sent.

Imaging: N/A Referral: N/A Counseling: N/A

4. Depression with anxiety F41.8

Chronic, stable.

The patient will continue to take venlafaxine.

5. Peripheral vascular disease, unspecified 173.9

The patient does have a history of CVA but has never had a diagnosis of peripheral vascular disease.

Orders:

traZODone 50 mg oral tablet, 4 tab, Oral, every day at bedtime, PRN AS NEEDED FOR SLEEP, # 360 tab, 3 Refill(s), Start Date: 10/10/24 16:09:00 EDT, Pharmacy: Optum Home Delivery, 162.56, cm, 04/29/24 9:02:00 EDT, Height, 83, kg, 04/29/24 9:07:00 EDT, Weight

This was a 5 min telemedicine visit via real-time video/audio, over half in discussion of the diagnosis, treatment plan, and follow up.

Future Orders

Basic Metabolic Panel, Blood, Routine, 10/08/24, Once, Lab Collect, Order for future visit, Essential hypertension | History of CVA (cerebrovascular accident) without residual deficits | CKD stage G3b/A1, GFR 30-44 and albumin creatinine ratio <30 mg/g

clopidogrel 75 mg oral tablet, 1 tab, Oral, Daily FeroSul 325 mg (65 mg elemental iron) oral tablet

ibuprofen 800 mg oral tablet

levothyroxine 100 mcg (0.1 mg) oral tablet, 1

tab, Oral, Daily

olmesartan 40 mg oral tablet, 1 tab, Oral, Daily omeorazole 40 mg oral delayed release capsule, 40 mg= 1 cap, Oral, Daily, 3 refills

pravastatin 20 mg oral tablet, 1 tab, Oral, Daily traZODone 50 mg oral tablet, 4 tab, Oral,

every day at bedtime, PRN

ventafaxine 150 mg oral capsule, extended release, 2 cap, Oral, Dally

Instructions from Melissa Anderson

Update me on blood pressure in a few weeks

Labs this week and 1 week prior to next visit

Kidney ultrasound in next few weeks

Ultrasound Renal Complete

Expires: 1/13/2026 (requested)

Labs ordered today

Complete this on or around 1/13/2025.

Magnesium

Complete this on or around 1/13/2025.

Renal function panel

Complete this on or around 1/13/2025.

Urinalysis with microscopic

Complete this on or around 1/13/2025.

Urine Albumin / Creatinine Ratio

Complete this on or around 1/13/2025.

Urine Protein / creatinine ratio

Complete this on or around 1/13/2025.

Magnesium

Complete this on or around 2/13/2025.

Renal function panel

Complete this on or around 2/13/2025.

Urinalysis

Complete this on or around 2/13/2025.

Urine albumin / creatinine ratio

Complete this on or around 2/13/2025.

Return in 6 weeks for Next scheduled follow-up.

Today's Visit

You saw Melissa Anderson on Monday January 13, 2025. The following issues were addressed: Chronic kidney disease stage 2, Hypertension, and Anemia in chronic kidney disease.

Blood Pressure

146/80

BMI 30.73

Weight 179 lb

Height 5' 4"

Pulse 103

Respiration

Oxygen Saturation 97%
